OFFICE OF PETITIONS

**DECISION DISMISSING
PETITION UNDER 37 CFR 1.10(c)**

This is a decision on a renewed petition filed March 19, 2007, which is properly treated as a petition under 37 CFR 1.10(c) requesting that the submission of the issue and publication fee payments and the formal drawings for the above-identified application be considered as filed on January 3, 2007, instead of the currently accorded filing date of January 4, 2007.

The petition is **DISMISSED**.

Any request for reconsideration of this decision should be filed within **TWO MONTHS** of the date of this decision in order to be considered timely (see 37 CFR 1.181(f)). No extensions of time pursuant to the provisions of 37 CFR 1.136 are permitted. If reconsideration is not requested within the time period specified above, this submission of the issue fee payment for the application will be referred to Office of Publications with the presently accorded filing date of January 4, 2007.

37 CFR 1.10(c) sets forth procedures for filing a petition to the Director for a filing date as of the date of deposit with the USPS, where there is a discrepancy between the filing date initially accorded by the Office and the "date in" entered by the USPS or other official USPS notation.

To be grantable, a petition must:

- (1) be filed promptly after the person becomes aware that the Office has accorded, or will accord, a filing date other than the USPS deposit date;
- (2) include a showing that the number of the "Express Mail" mailing label was placed on each piece of correspondence prior to the original mailing; and
- (3) include a true copy of the "Express Mail" mailing label showing the "date in" or other official notation by the USPS.

This petition lacks item (2) above.

Petitioner alleges that the payment of the issue and publication fees and drawings were deposited with the United States Postal Service on January 3, 2007 using Express Mail Service. In support, the petition is accompanied by a copy of Express Mail receipt No. ER 059677689 US showing a round stamp of January 3, 2007. The same Express Mail number is found on the fee transmittal sheet itemizing payment of the issue and publication fees and the postcard receipt itemizing a cover letter, an issue fee transmittal, formal drawings (4 pgs) and a check for \$1700 (which includes the issue and publication fees). Additionally, the previous petition included a letter from a United States Postal Service Customer Service Supervisor, Philip Grant, of the Grand Central Station Post Office stating, "[t]he date postmarked on your copy of the Express Mail receipt is our confirmation of receipt for that date, which is the "date in" prior to the last scheduled pickup . . . If the Express Mail piece is received before the close of business on a particular day it may show a processing date of the next day in the tracking system. This should not be considered as the official "date-in" of receipt at the Post Office. The official "date-in" receipt is the date [p]ostmarked in the round stamp on your customer copy." Lastly, Petitioner has supplemented the record with an official correspondence from the Under Secretary of Commerce for Intellectual Property and Director of the United States Patent and Trademark Office, entitled, "Closing of the United States Patent and Trademark Office on Tuesday, January 2, 2007." This correspondence clarifies that the Office was not open on January 2, 2007, and as such, "[a]ny action or fee due on Tuesday, January 2, 2007, will be considered as timely for purposes of, e.g., 35 U.S.C. §§ 119, 120, 133, and 151, if the action is taken, or the fee is paid, on the next succeeding business day on which the USPTO was open, that is, Wednesday, January 3, 2007." Thus, a January 3, 2007 submission to requirements of the Notice of Allowance and Allowability mailed October 2, 2006 will be considered timely.

Based on the evidence provided, petitioner has not made a convincing showing that the four pages of formal drawings were deposited as "Express Mail" with the U. S. Postal Service on January 3, 2007. As stated above, the fee transmittal sheet did include the Express Mail number label itemizing the issue and publication fees and is considered as filed on January 3, 2007. However, the postcard receipt is fugitive evidence that is not part of the official USPTO record for this application. Petitioner overlooks that he is not requesting a filing date for the postcard receipt of January 3, 2007; he is asking for a filing date of January 3, 2007 for the above-identified submission of formal drawings that, simply put, did not have Express Mail Label No. ER 059677689 US affixed thereon. In order to obtain the remedial benefits of 37 CFR 1.10, petitioner had to comply with the requirements of 37 CFR 1.10(c)(2) for the correspondence in question; and the postcard receipt is not that correspondence.

Moreover, MPEP 513(III) states,

[t]o be effective, the number must be placed on each separate paper and each fee transmittal either directly on the document or by a separate paper firmly and securely attached thereto. In situations wherein the correspondence includes several papers

directed to the same application (for example, the specification, drawings and declaration for a new application), the correspondence may be submitted with a cover or transmittal letter which should itemize the papers. It is not necessary that the number be placed on each page of a particular paper or fee transmittal. Merely placing the number in one prominent location on each separate paper or fee transmittal (or cover sheet or transmittal letter which should itemize the separate papers and fees) will be sufficient.

A review of the file does include the Express Mail Label No. ER 059677689 US on the issue fee transmittal but does not include the Express Mail label number on the formal drawings or a cover sheet or a transmittal letter, which itemizes the formal drawings. As such, the submission of the formal drawings are not accorded the January 3, 2007 date, and the application is abandoned for failing to submit the formal drawings on or before January 3, 2007.

Petitioner may wish to consider filing a petition stating that the delay was unintentional. Public Law 97-247, § 3, 96 Stat. 317 (1982), which revised patent and trademark fees, amended 35 U.S.C. § 41(a)(7) to provide for the revival of an "unintentionally" abandoned application without a showing that the delay in prosecution or in late payment of the issue fee was "unavoidable." This amendment to 35 U.S.C. § 41(a)(7) has been implemented in 37 CFR 1.137(b). An "unintentional" petition under 37 CFR 1.137(b) must be accompanied by the \$1500 petition fee.

The filing of a petition under 37 CFR 1.137(b) cannot be intentionally delayed and therefore must be filed promptly. A person seeking revival due to unintentional delay cannot make a statement that the delay was unintentional unless the entire delay, including the date it was discovered that the application was abandoned until the filing of the petition to revive under 37 CFR 1.137(b), was unintentional. A statement that the delay was unintentional is not appropriate if petitioner intentionally delayed the filing of a petition for revival under 37 CFR 1.137(b).

DETAILED ACTION

EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee. Authorization for this examiner's amendment was given in a telephone interview with Thomas Spath on 26 September 2006. The application has been amended as follows:

Replace Claims 1, 5, 8, and 9 with the following:

1. A rotational test electrode assembly for use in a corrosive fluid environment comprising:

a) a generally cylindrical heat and electrically conductive member having an annular portion, a solid portion, and mounting means for attaching a rotational electrode in close-fitting heat and electrically conductive relation, the electrode being selected from the group consisting of cylindrical and disk electrodes;

b) a heating device positioned inside of the annular portion and in heat exchanging relation with the solid portion of the conductive member;

c) a corrosion resistant external protective member that surrounds a portion of the heat conductive member in close-fitting relationship;

d) electrical terminal means for receiving a plurality of external electrical connectors that is mounted on the protective member opposite the portion of the conductive member on which the rotational electrode is mounted; and

e) driving means to rotate the rotational test electrode assembly.

5. The rotational test electrode assembly of claim 1 which further comprises mounting means proximate the electrical terminal means for coupling the assembly to the rotational drive means.

8. The rotational test electrode assembly of claim 1, wherein the protective member is formed from an electrically insulative polymer.

9. The rotational test electrode assembly of claim 8, wherein the polymer is selected from the group consisting of polytetrafluoroethylene, polyethylene, polypropylene, polyvinyl chloride, and copolymers thereof.

Drawings

2. The drawings filed on 28 April 2005 are acceptable subject to correction of the following: The drawings have numerous reference item numbers and labels that are not readable. The drawings show elements that cannot be easily seen; e.g., the thermistors. The drawings have numerous lines which are broken thus not clearly showing the various embodiments.
3. In order to avoid abandonment of this application, correction is required in reply to the Office action. The correction will not be held in abeyance.

Allowable Subject Matter

4. Claims 1-18 are allowed.
5. The following is an examiner's statement of reasons for allowance:

The prior art teaches several different types of corrodible test electrode assemblies. See, for example, United States Patents 2,519,323 to Shank *et al.*, 3,627,493 to Manley, and 5,006,786 to McKubre *et al.* Shank *et al.* discloses a rotating test assembly. However, there is no teaching or suggestion for providing a heat and electrically conductive portion having a solid portion, an annular portion, and mounting means. Shank *et al.* also does not disclose a heating device. McKubre *et al.* also teaches a rotating test assembly having an annular portion. However, like Shank *et al.*, there is no teaching or suggestion for rotating the test assembly. Manley discloses a static test assembly. While Manley discloses heating means inside an annular member there is no teaching or suggestion to rotate the test assembly.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should

preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

6. Any inquiry concerning this communication or earlier communications from the examiner should be directed to David A. Rogers whose telephone number is (571) 272-2205. The examiner can normally be reached on Monday - Friday (0730 - 1600). If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Hezron E. Williams can be reached on (571) 272-2208. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.

THE APPLICATION IDENTIFIED ABOVE HAS BEEN EXAMINED AND IS ALLOWED FOR ISSUANCE AS A PATENT. **PROSECUTION ON THE MERITS IS CLOSED.** THIS NOTICE OF ALLOWANCE IS NOT A GRANT OF PATENT RIGHTS. THIS APPLICATION IS SUBJECT TO WITHDRAWAL FROM ISSUE AT THE INITIATIVE OF THE OFFICE OR UPON PETITION BY THE APPLICANT. SEE 37 CFR 1.313 AND MPEP 1308.

THE ISSUE FEE AND PUBLICATION FEE (IF REQUIRED) MUST BE PAID WITHIN **THREE MONTHS** FROM THE MAILING DATE OF THIS NOTICE OR THIS APPLICATION SHALL BE REGARDED AS ABANDONED. **THIS STATUTORY PERIOD CANNOT BE EXTENDED.** SEE 35 U.S.C. 151. THE ISSUE FEE DUE INDICATED ABOVE DOES NOT REFLECT A CREDIT FOR ANY PREVIOUSLY PAID ISSUE FEE IN THIS APPLICATION. IF AN ISSUE FEE HAS PREVIOUSLY BEEN PAID IN THIS APPLICATION (AS SHOWN ABOVE), THE RETURN OF PART B OF THIS FORM WILL BE CONSIDERED A REQUEST TO REAPPLY THE PREVIOUSLY PAID ISSUE FEE TOWARD THE ISSUE FEE NOW DUE.

HOW TO REPLY TO THIS NOTICE:

I. Review the SMALL ENTITY status shown above.

If the SMALL ENTITY is shown as YES, verify your current SMALL ENTITY status:

A. If the status is the same, pay the TOTAL FEE(S) DUE shown above.

B. If the status above is to be removed, check box 5b on Part B - Fee(s) Transmittal and pay the PUBLICATION FEE (if required) and twice the amount of the ISSUE FEE shown above, or

If the SMALL ENTITY is shown as NO:

A. Pay TOTAL FEE(S) DUE shown above, or

II. PART B - FEE(S) TRANSMITTAL, or its equivalent, must be completed and returned to the United States Patent and Trademark Office (USPTO) with your ISSUE FEE and PUBLICATION FEE (if required). If you are charging the fee(s) to your deposit account, section "4b" of Part B - Fee(s) Transmittal should be completed and an extra copy of the form should be submitted. If an equivalent of Part B is filed, a request to reapply a previously paid issue fee must be clearly made, and delays in processing may occur due to the difficulty in recognizing the paper as an equivalent of Part B.

III. All communications regarding this application must give the application number. Please direct all communications prior to issuance to Mail Stop ISSUE FEE unless advised to the contrary.

IMPORTANT REMINDER: Utility patents issuing on applications filed on or after Dec. 12, 1980 may require payment of maintenance fees. It is patentee's responsibility to ensure timely payment of maintenance fees when due.

**Closing of the United States Patent and Trademark Office
on Tuesday, January 2, 2007**

In view of the official closing of the Federal Government offices in the Washington, D.C. metropolitan area, including the United States Patent and Trademark Office (USPTO), on Tuesday, January 2, 2007, the day proclaimed by President Bush as a National Day of Mourning, the United States Patent and Trademark Office will consider Tuesday, January 2, 2007, a "Federal holiday within the District of Columbia" under 35 U.S.C. § 21 and 37 C.F.R. §§ 1.6, 1.7, 1.9, 2.2(d), 2.195, and 2.196. Any action or fee due on Tuesday, January 2, 2007, will be considered as timely for the purposes of, e.g., 35 U.S.C. §§ 119, 120, 133 and 151, if the action is taken, or the fee is paid, on the next succeeding business day on which the USPTO was open, that is, Wednesday, January 3, 2007.

37 C.F.R. §§ 1.6(a)(2) and 2.195(a)(4) provide that correspondence deposited as Express Mail in accordance with 37 C.F.R. § 1.10 or 2.198 will be considered as filed on the date of deposit with the United States Postal Service (USPS). Thus, any paper or fee properly deposited in accordance with 37 C.F.R. § 1.10 or 2.198 with the Express Mail service of the USPS on Tuesday, January 2, 2007 (that is, as shown by a "date-in" of Tuesday, January 2, 2007, on the Express Mail mailing label) will be considered filed in the USPTO on its date of deposit in the Express Mail service of the USPS.

37 C.F.R. § 2.195(a)(2) provides that trademark-related correspondence transmitted electronically to the USPTO will be considered filed in the USPTO on the date the USPTO receives the electronic transmission. Thus, trademark-related correspondence transmitted electronically on Tuesday, January 2, 2007, will be considered filed in the USPTO on the date the USPTO received the electronic transmission. Correspondence successfully received by the USPTO through the patent Electronic Filing System will receive the date as indicated on the Acknowledgment Receipt.

Attention: Petitions-USPTO

Sir:

Applicant respectfully requests that the mailing date of the Issue Fee be corrected in the official records of the Patent Office to indicate that the correct mailing date of the submission of the Issue Fee for this application is: January 3, 2007

Evidence in support of this Petition is provided below.

BEST AVAILABLE COPYREMARKS

This paper was submitted to the USPTO via Express Mail on January 3, 2007. The Statement of Filing by Express Mail Pursuant to 37 C.F.R. §1.10 with the Express Mail No. ER059677689US was placed on the document and on a postcard receipt prior to the original mailing. Notwithstanding the foregoing, as shown by the attached true copy of our postcard receipt, the date stamped by the USPTO mailroom on the postcard is January 4, 2007.

The sealed Express Mail envelope was delivered by hand to a U.S. Postal Service office in New York City and the Express Mail Mailing Label was correctly completed with the date of deposit date-stamped by a U.S. Postal Service employee. In accordance with established procedure, the "Customer Copy" of the multi-part U.S. Postal Service Express Mail Label was returned to our firm.

Attached is a true copy of the "Express Mailing Label" for this submission showing the "date-in" entry of January 3, 2007 in the round stamp made by an employee of the U.S. Postal Service. Also attached is a letter dated October 24, 2006 from the United States Postal Service, providing an explanation of the "Date-in" postal procedures, and confirming that the date appearing in the round stamp is the actual date on which the submission was made to the Express Mail Service prior to the last scheduled pickup.

Accordingly, Applicant respectfully requests by this Petition that the mailing date accorded this application be corrected to read: January 3, 2007 on the USPTO records.

No fee is believed to be due in connection with this Petition. Please charge any fee(s) which may be due for filing this Petition and credit any overpayments to our Deposit Account No. 01-0035.

Re: Express Mail Processing procedure

Dear Mr. Catanzaro,

I am writing you this letter to confirm our conversation of today regarding the processing of your Express Mail. The date postmarked on your copy of the Express Mail receipt is our confirmation of receipt for that date, which is the "date-in" prior to the last scheduled pickup. The mail is then sent to our Express Mail processing unit where it is entered into the tracking system. If the Express Mail piece is received before the close of business on a particular day it may show a processing date of the next day in the tracking system. This should not be considered as the official "date-in" of receipt at the Post Office. The official "date-in" receipt is the date Postmarked in the round stamp on your customer copy. Please feel free to call me if you need any further assistance.

Sincerely,

Philip Grant

OFFICE OF PETITIONS

In re Application of

JARALLA

Application No. 10/533,490

Filed: April 28, 2005

Attorney Docket No. 206,973

DECISION DISMISSING

PETITION UNDER 37 CFR 1.10(c)

This is a decision on the petition filed January 16, 2007, which is properly treated as a petition under 37 CFR 1.10(c) requesting that the submission of the issue fee payment for the above-identified application be considered as filed on January 3, 2007, which is the "date-in" or other official USPS notation on the Express Mail Mailing Label, instead of the currently accorded filing date of January 4, 2007.

The petition is **DISMISSED**.

Any request for reconsideration of this decision should be filed within **TWO MONTHS** of the date of this decision in order to be considered timely (see 37 CFR 1.181(f)). No extensions of time pursuant to the provisions of 37 CFR 1.136 are permitted. If reconsideration is not requested within the time period specified above, this submission of the issue fee payment for the application will be referred to Office of Publications with the presently accorded filing date of January 4, 2007.

37 CFR 1.10(c) sets forth procedures for filing a petition to the Director for a filing date as of the date of deposit with the USPS, where there is a discrepancy between the filing date initially accorded by the Office and the "date in" entered by the USPS or other official USPS notation.

To be grantable, a petition must:

- (1) be filed promptly after the person becomes aware that the Office has accorded, or will accord, a filing date other than the USPS deposit date;
- (2) include a showing that the number of the "Express Mail" mailing label was placed on each piece of correspondence prior to the original mailing; and
- (3) include a true copy of the "Express Mail" mailing label showing the "date in" or other official notation by the USPS.

This petition lacks item (3) above.

Petitioner requests the filing date of January 3, 2007 on the basis that there is a discrepancy between the filing date the USPTO has currently accorded this application and the "date-in" or other official USPS notation on the "Express Mail" mailing label. The Remarks of the petition state, "[a]ttached is a true copy of the "Express Mailing Label" for this submission showing the "date-in" entry of January 3, 2007 in round stamp made by an employee of the U.S. Postal Service." Unfortunately, the copy of round stamp on the Express Mail mailing label supplied to the Office is illegible, and no date can be discerned.

Moreover even if the submission was granted a filing date of January 3, 2007, the above-identified application is abandoned. The application became abandoned for failure s to timely pay the issue and publication fees on or before January 2, 2007, as required by the Notice of Allowance and Fee(s) Due, mailed October 2, 2006, which set a statutory period for reply of three (3) months. Accordingly, the application became abandoned on January 3, 2007.
